Pure Puerto Rican Paso Finos are capable of doing anything any other horse can do. Many of these beautiful animals have an exceptional relationship with human beings. But they are most exceptional for their natural gait, a rhythmic step with an evenly spaced 1-2-3-4 gait that is equally balanced and square.

All proceeds go to benefit the preservation of this special breed. To learn more about the NAPPRPFO please visit their website at <http://purepuertoricanasofino.org/home.htm>
